

## DRIVE SALES BY ELIMINATING THEFT OF GOLF CLUB HEADS

### GOLF CLUB SCORPION

Scorpion offers a highly secure solution for golf clubs of all sizes that have removable heads. Our solution allows employees to use a small barrel lock and key to open/close device, while maintaining a seamless, hands-on shopping experience for consumers. The Golf Club Scorpion provides complete protection against theft by ensuring that the club head cannot be separated from the shaft as both parts have high value.

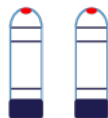

\*The Golf Club Scorpion utilizes a key to open and close/install with ease.

#### Theft Deterrent

Visible protection deters from theft attempts

#### AM/RF Technology

Extremely effective with or without EAS (remove at door) system at the door

#### Universal Design

Solution fits all golf club drivers

#### Easy Installation
