

SCORPION SMART BARRIER

DON'T JUST REDUCE THEFT, ELIMINATE IT.

The Scorpion Smart Barrier can secure any product that is merchandised on a shelf or pegboard hook. Push-button technology provides easy access to products for the customer, while visual and audible alerts keep store employees aware of when the Scorpion Smart Barrier is open. Perfect for merchandising high-shrink products and big box store displays.

End of Run Audio Alert

Audible alert beeps when barrier is opened or locked

Smart Electronic Lock

Can be locked/unlocked remotely

Visual Alert

Strobe will flash when multiple barriers are opened within a given timeframe

Schedule Lock/Unlock

Ability to schedule remote lock/unlock with use of portal

Push Button Technology

Open/close through push button, which activates/deactivates electronic lock

Versatility

Can be used across multiple categories
